

GEOGRAPHY (029)

Reconstructed Question Paper — 2025

Reconstructed from the submitted answer booklet. Exact map labels and several MCQ stems are not visible.

Section A — Multiple Choice Questions

Q.1–Q.17 Answer the objective questions. Identifiable topics include:

1. geographical thinkers/terminology,
2. sustainable development,
3. rural development,
4. pollution and environmental issues,
5. agriculture and allied products,
6. manufactured goods,
7. transport and communication.

Section B — Human Geography and Development

Q.18 Explain the effects of poaching and illegal hunting on wildlife. Why does it lead to extinction/endangerment of species?

Q.19 Explain the pressure on cultivated land in India. Discuss how population growth, increasing food demand, urbanisation and industrialisation affect land use.

Q.20 Explain the role of the following factors in the location/distribution of population:

- (i) climate,
- (ii) water availability,
- (iii) soil fertility.

Q.21 Explain the importance of the Rhine waterway. Discuss the industrial regions connected by it and its role in the movement of bulk goods and raw materials.

Q.22 Explain the road network in India. Classify roads into national highways, state highways, district roads and rural roads, and describe the main features of state highways.

Q.23 Discuss the problem of urban waste in India. Explain its effects on the environment and human health and suggest measures for:

1. waste management,
2. recycling and reuse,
3. composting/energy recovery,
4. public awareness,
5. proper disposal of hazardous waste.

Map / Data Based Questions

Q.24 On the outline map of India/world, locate and label the places/features specified in the original question paper.

Q.25 Study the supplied geographical data/diagram and answer the questions based on transport, population, agriculture or resource distribution.

The original map labels and several exact objective-question choices are obscured in the scanned answer booklet.
